

**When your pet goes on
the lawn, remember
it doesn't just go
on the lawn.**

When your pet leaves those little surprises, rain washes all the pet waste and bacteria into storm drains. That pollutes our waterways. So what can you do? Simple. Dispose of it properly (preferably in the toilet). Then that little surprise gets treated like it should.

This project has been funded wholly or in part by the United States Environmental Protection Agency under assistance agreement 319 to the Indiana Department of Environmental Management. The contents of this document do not necessarily reflect the views and policies of the U.S. Environmental Protection Agency, nor does mention of trade names or commercial products constitute endorsement or recommendation for use. Also special thanks to N.Y. Long Island Sound Study and Washington State Department of Ecology for their collaboration.
